A diagram of a human dental arch, likely a maxillary (upper) arch, viewed from the front. The teeth are numbered 1 through 8 on both sides, starting from the central incisors (1) and moving towards the molars (8). The diagram is divided into four quadrants by a vertical line (H) and a horizontal line (D). The quadrants are labeled: H (top), B (bottom), D (left), and G (right). The teeth are shown in a simplified, schematic manner, with some teeth marked with red 'X' symbols, possibly indicating missing or damaged teeth. The diagram is used to illustrate the arrangement and classification of teeth in a dental arch.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf from an old book. The paper has a slightly textured appearance with some minor discoloration and faint smudges. A small, dark brown stain is visible near the top center of the page. The page is otherwise empty of any text or markings.
