

A diagram of a human dental arch, likely a maxillary (upper) arch, viewed from the front. The teeth are numbered 1 through 8, starting from the central incisors at the midline and moving outwards to the molars. The numbering is symmetrical on both sides. The diagram is divided into four quadrants by a vertical line (midline) and a horizontal line (intercusp line). The quadrants are labeled with Roman numerals: I (top right), II (top left), III (bottom left), and IV (bottom right). The teeth are shown in a simplified, schematic manner, with the crown and root areas indicated by different shading patterns.
