A diagram of a human dental arch, likely a maxillary (upper) arch, viewed from the front. The teeth are numbered 1 through 8 on each side, starting from the central incisors (1) and moving laterally to the molars (8). The diagram is divided into four quadrants by a vertical line (H at the top, B at the bottom) and a horizontal line (D on the left, G on the right). The teeth are shown in a simplified, schematic style, with labels H, B, D, and G at the corners of the quadrants.

This image shows a full page of dot grid paper. It features horizontal ruling lines spaced evenly down the page. Vertical margin lines are present on both the left and right sides, creating narrow margins. The entire surface is covered with small dots, which serve as guides for writing or drawing. There is no handwriting or other markings on the page.
